

**AMENDMENTS TO THE SPECIFICATION**

Please amend the paragraph on page 34 beginning at line 4 as follows:

The digital camera 1 sets a current frame number to be displayed on the LCD 14 to a frame number of the image data set photographed most recently (Step S73), and displays the image represented by the image data set of the current frame number on the LCD 14 (Step S74). Consequently, an image selection screen 44 shown in Figure 21 is displayed on the LCD 14 in the image selection routine. As shown in Figure 21, in the image selection screen 44~~144~~ are displayed an image 144A having the current frame number, a number 144B representing the quantity n of the remaining frames to be selected, a number 144C representing the current frame number, a date 144D of photography, and right and left buttons 144F and 144E.
